COMM-EDU JULY 2023 NEWSLETTER

COMM-EDU IS COMING TO AN END, BUT WE PLANTED A LOT OF SEEDS!

Comm-Edu: Community agreements for Education is reaching its final stage, as we worked on using innovative ways to **create educational communities** at the local level including public-private partnerships and the most relevant stakeholders. Every national partner was able to write down and sign a document, the Community Agreement, which will guide everyone involved to implement the next actions.

COMMUNITY AGREEMENTS TRANSLATED IN 5 DIFFERENT LANGUAGES

Every national partner had the pleasure to **translate the community agreement** in their own language , which was written down during the first part of the project. This helps the dissemination and can be a **useful guide**, not only for the communities chosen for this project, but also for every public or private institution wanting to try this approach to education in the place they live!

LOCAL EVENTS

What is the best way to involve the local communities in our project and get them to actively participate? Local events! This is why every partner organized an event to present the results of the project to their community and sign the community agreement together.

FOLLOW UP

The signature of the community agreements in the 4 partner countries established the educational communities at the local level. Stakeholders are now committed to promoting the education and active citizenship of students inside their own community and to contribute to the implementation of activities that can be effective solutions to the challenges identified at the local level.

PROJECT'S PARTNERS

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.
